ABOUT ME

As a **mathematician** and a **full stack developer**, I excel in translating complex mathematical concepts into efficient software solutions. A collaborative team player, I bring a unique blend of analytical and technical skills to deliver innovative solutions. As a highly skilled and motivated developer, I possess a diverse set of technical expertise, a proven track record of delivering high-quality solutions, and a passion for staying abreast of cutting-edge technologies.

WORK PERMITS

Authorized to work in Ireland with valid work permits.

LANGUAGES

Spanish: Native

English: Advanced (C1)

WORK EXPERIENCE

Full stack developer (Lab9 – Web development company) 2021 – 2024

- 3+ years of **web development** experience in both front and backend technologies.
- 3+ years in **JavaScript** and **Typescript**.
- 3+ years in **Node.js** and **React.js**.
- Experience in building versioned **REST APIs**.
- Solid understanding and considerable experience with **SQL** and **Firebase**.
- Experience working with software source control systems such as **Git**.
- Knowledge of **Agile/Scrum** and associated tools.
- Fluency in **English**, excellent writing and grammar skills.
- Effective communication and collaboration using platforms such as **Slack** and **Microsoft Teams**.
- Extensive experience in utilizing **Microsoft Word** and **Excel**.

College professor (UNT) 2017 – 2020

Calculus and Linear Algebra teacher.

EDUCATION

- Bachelor's in Mathematics (UNT)
- Argentina Programa & freeCodeCamp

I acquired proficiency in **Javascript, Java, Python, Ruby, R, HTML, CSS, TailwindCSS, DaisyUI, MaterialUI, Bootstrap, API Rest, React.js, Git, SQL, Node.js, Figma, Slack**, through academic studies and practical application in various projects.
